Market Strategy: Smell of Lower Rates Bypasses Realty Stocks

Realty Stocks Would be Big Beneficiaries of Lower Rates, Yet Stock Market Yawns

This is the part of the stock market cycle when patience should pay off for realty stock investors. The broad market has boomed to a post-October 1987 crash high, fueled by a widespread whiff of lower interest rates and enthusiasm that energy stocks are reviving on higher oil prices.

This is an environment tailored to produce double-digit gains in real estate rents and prices, because it signals an end to some of the many negatives which have been hurting real estate stocks.

Surprisingly, investors in real estate stocks have yawned. Realty stocks are up only 2.9% in the four months thru our pricing date this week, and the bellweather equity REITs (reviewed in the April 21 and this issue) are languishing.

The "why" continues to escape us, because we see values building in the group, especially among seasoned equity trusts, based on continuing cash flow gains (albeit in the modest 6% average range). If the equity REITs can do this good thru what looks like the bottom of a real estate recession, can't they do even better in a lower rate climate?

We think the answer is yes, and so have urged taking a strong but diversified position in the seasoned equity REITs reviewed in April 21 and this issue. Our Portfolio Selector on page 2 gives more specifics. We are persuaded that there is more

value in the group than is generally recognized, as reflected in our internal estimates of current value. These estimates are incorporated into our Appraised Asset Value table on page 3 and we will be updating these values in the future.

While the market tends to view the seasoned equity REITs as "stocks", we think you will benefit from looking at them as a liquid substitute for property as well. From the reviews of 13 seasoned equity REITs done this month, we prepared the following table to show two characteristics: (1) the enormous diversity of portfolio possible as reflected in the number and square footage of properties held by these equity REITs; and (2) the number of square feet of property represented by each share of stock. While the ratio of square feet per share is influenced by a REIT's leverage policies, this statistic lets investors compare the potential of rent increases for each stock.

Portfolio Selector of Stocks For Investment Goals

We list below stocks we believe are currently usable in your portfolio. They are grouped into six major categories reflecting broad investment goals, so you can match property and regional characteristics to your specific needs. Purchases should be made at or below prices listed in

the "Limit" column at right. Stocks currently selling above our suggested limits are marked with an "*" and should be bought only on declines. Most builder/developers, for instance, are above target prices, indicating caution.

Selector also lists REALTY STOCK REVIEW's exclusive Ranking of each stock; the major property type in its portfolio or business; and geographic area in which it operates. We continue to have a bias toward seasoned shopping center REITs in the Northeast and Southeast.

Limit purchase prices increased for:

Health Care REIT (HCN: ASE -- \$13.25) has boosted its payout 5% to \$1.60 per share from \$1.52 indicating positive results at three of four troubled properties: Campe Verde, Az.; Fort Wayne, Ind.; and Santa Fe, N.M. Problems came to fore last summer and precipitated a Sept., 1988 dividend cut. Increased payout supports higher limit.

Limit purchase prices lowered for:

BRT Realty (BRT: NYSE -- \$16.00) as shares have weakened on fear of a dividend cut. Management says it is not currently planning such a move. A cut could conceivably result from reduced yields or increased defaults as short-term investments are re-cast in a high short-term rate environment.

Copley Property Investors (COP: ASE -- \$16.38) shares have been weak due to 1989 cash flow that it expects will be \$1.55 per share; COP elects to keep its \$1.68 per share dividend. Shares should be acquired for the long term only.

News & comment on Selector stocks:

ICM Property Investors, Inc. (ICM: NYSE -- \$9.25) has signed a five-year lease for approx. 32,000 sq. ft. with Southwestern Bell Yellow Pages, Inc. for space in its Texas Bank North Building in San Antonio, Tex. (50% joint venture). This is good news for ICM in the still soft San Antonio market, the increase brings total occupancy at this property to about 82%.

General Development Corp. (GDV: NYSE -- \$14.88) acquires Calif. timeshare operator, Glen Ivy, in a bid to expand this segment. The transaction adds 10 western resort communities with \$15.7 mil. pre-tax earnings. However, the timesharing business is attracting many new players that could put pressure on margins.

MGI Properties (MGI: NYSE -- \$14.63) seems to be preparing shareholders for a stiff cut in the current \$1.60 payout. MGI's latest quarterly discusses possibility it won't pay depreciation running about \$0.40/yr. The logical implication is that MGI could cut payout to about \$1.20/sh. New dividend rate will be announced in June. MGI shares will be undynamic for the near-term; long-term holders will want to ride through.

Wells Fargo Mortgage & Equity Trust (WFM: NYSE -- \$18.25) has signed a definitive merger agreement with KW

Partnership, an affiliate of The Koll Co. WFM will sell substantially all of its assets as outlined in its plan of liquidation. The sale price is approx. \$135 mil. or about \$20.11/share, subject to closing adjustments. The merger culminates discussions that began back in July, 1988.

Washington REIT (WRE: ASE -- \$19.13) has 1.5 mil. share offer in registration as of April 21. Underwriters for the offer will be Alex Brown and Merrill Lynch. WRE is taking advantage of the flowing tide in equity capital formation that has opened up for Blue Chip equity REITs in 1989.

Non-portfolio news:

In highly irregular modus-operandi, two Detroit government pension plans are making a bid for **Income Opportunity Realty Trust (IOT: ASE -- \$8.38)**, a beleaguered REIT that was fed to Ex-Southmark Corp. executives, Gene Philips and William Friedman in their negotiated departure back in Jan.

The pension funds are not content with sitting the sidelines any longer. IOT's stock has dropped over 60% in value from the \$20.00 per share the funds paid for 750,000 shares (20.3%) at IOT's initial offering back in 1985, to the \$7.50 a share offer price. The market wants more because its pricing 12% over the bid.

A battle for control is brewing at **Southmark Corp. (SM: NYSE -- \$0.88)**, as dissident SM shareholder Herb Parks, has sought to have SM's shareholder rights plan invalidated in a Federal court filing. The 4.7% shareholder group led by Mr. Parks also determines to wage a proxy fight against SM to replace its board.

In response to the Parks Group's suit, SM is counter-suing, alleging that Mr. Parks is in violation of Federal and state proxy laws. SM stated that the Parks Group made inadequate and misleading disclosures in his proxy solicitation for SM's May 19 annual meeting.

Trammell Crow Real Estate Investors (TCR: NYSE -- \$6.50) says continued pressure on market rents and expiration of a developer's master lease on Houston industrial property in June will adversely affect 1989 distributable cash. TCR had \$1.28/sh. distributable cash in 1988, down 8.6% and currently is paying \$1.26/sh. dividends. Much of payout is now supported by amortization of TCR's

zero coupon financing, which in effect lets shareholders spend today the future value of TCR's properties. We think TCR will try to hold payout above \$1.00/sh., so that it would be yielding 15% on the current \$6.50 price. Disappointing as the price plunge is, we'd hold for longer-term recovery.

Correction: **New Plan Realty Trust**, in response to our April 21 review, has stated that only Roosevelt Mall, Newdon Plaza, and Rockland Consumer Plaza were valued at a 5% capitalization rate in establishing NPR's \$16.00/share current value. Other properties were valued at a more conservative 8%.

Appraised market values of net assets (i.e., properties held) are reported publicly by companies. Values are estimated by management and concurred in by independent appraisers except for: New Plan Realty, management estimate only. Share values are fully diluted. a-Entity has not revalued mortgages. b-Estimated by RSR; not confirmed by Trust.

INTERNATIONAL INCOME PROPERTY INC. (IIP: ASE)

IIP owns five major regional malls. Because it is sponsored by a major Australian real estate operator, it previously operated with British-style financing relying heavily upon frequent and dilutive share offerings. IIP has just changed its bylaws to let it finance properties more in the American style without these repeated dilutive share offerings.

IIP owns these properties with these average rents and occupancies at the end of 1988:

Center	Total SF	IIP %	Net SF	Avg. Rent	Occ.
Oglethorpe, Savannah.	820 Th.	51.0%	418 Th.	\$12.44/SF	98%
Northgate, Chattanooga	805 "	45.0	362 "	7.75/SF	93%
Meadows, Las Vegas.	894 "	35.1	314 "	18.18/SF	98%
Park City, Lancaster.	1,416 "	74.9	1,059 "	8.48/SF	98%
#Landmark, Alexandria.	687 "	18.1	124 "	In Renovation	
Totals	4,622 Th.		2,278 Th.		

Open center, currently converting to mall; adding approx. 210 Th. SF.

IIP's space is divided 1.72 mil. SF in mall stores (75.5% of space) and 558,000 SF leased to anchors, with J.C. Penney accounting for 58% of this. The five centers contain a total 4.62 mil. SF, and anchors own 50.7% (2.3 mil. SF). Sears Roebuck and Penney are major anchors owning their own space. The arrangement gives IIP ownership of much high-rent mall space without having to be responsible for low-rent anchor space.

Gut Issue: Will IIP's ambitious expansion of Landmark Center in Alexandria, Va. pay off? IIP has committed \$140 mil. to nearly triple its space at Landmark Center, expanding from a 124,250 SF open mall to 335,000 SF three-level enclosed mall. First phase of 112,000 SF is expected to open late this year with remainder opening 1990. IIP has obtained bank construction financing over an allocated \$63.5 mil. equity in cash or project expenditure. It sold shares last year to raise \$50.5 mil. for Landmark. IIP's initial investment was \$23.5 mil. Phase I is 65% preleased.

Assets and Operations: Mall rents rose over 10% per SF at Park City and The Meadows in 1988, but rents at Oglethorpe Mall

were up only 1% and average mall rents fell 6.2% at Northgate Mall in Chattanooga, where a junior department store and catalog store closed; the aggregate 50,000 SF has been released to regional operators. In mall stores, IIP's ability to roll-over existing leases at higher rents is crucial to long-term success. IIP seems to be getting good rent bumps on re-leasing and about 43% of space is up for renewal over the next three years.

Cash flow and dividend: IIP's cash flow has, from inception not supported its dividend. Shortfalls are made up with proceeds of refinancings that take advantage of appreciation in properties. IIP estimates that 9% of unrealized value in its properties has been distributed as dividends. CFS of \$0.72 in 1988 fell short of \$1.04 payout; we look to Landmark space rentals in 1990 to help close this shortfall.

Current Value: IIP says its appraisers value shares at \$19.17/sh. at year-end 1988, up 5%. Appraisers appear to be capitalizing cash flow at 5%, altho the Landmark renovation clouds details of the valuation process.

Advice: Buy long-term. IIP owns high-powered mall space which should do well even in a slowdown. Recent bylaw changes remove need to finance with potentially dilutive rights offerings and give the manager a direct stake in IIP's success. Shares remain at A Rank. (KDC)

IIP-ASE Rank A Dec. years 15.64 mil. shs.

PENNSYLVANIA REIT (PEI: ASE)

PEI is an old-line equity REIT now building its portfolio by joining in new developments via carefully structured joint ventures. Holdings and cash flow are divided about evenly between shopping centers and apartments. In recent years PEI has begun venturing beyond its Pennsylvania base.

Gut Issue: Can PEI find good shopping center investments as it moves farther from home base? Management regards today's real estate environment as extremely competitive. And while recent shopping center ventures have reached 90% occupancy, pushing occupancy over that figure has proved difficult, especially in a Jacksonville, Fla. project. The last 10% of occupancies often provides the fattest returns in a project.

New properties: Retail: PEI has entered joint ventures adding four centers with 942,000 sq. ft. (436,000 net SF to PEI or 15% of its total 2.9 mil. net SF of retail space). In 1988 PEI paid

\$5.1 mil. for 40% of 354,000 SF Laurel Mall, Hazelton, Pa.; the price works out to \$36.40/SF but PEI also gets 30 acres of expansion land at this 99% leased mall. Three other centers are all newly constructed and far afield from home base: Commons of Chicago Ridge (Ill.), 242,000 SF, near 90% leased; Mandarin Corners, Jacksonville, 216,000 SF, 92% leased; and South Blanding Village, also Jacksonville, projected 130,000 SF, about 79% leased mainly to anchors.

In its ventures, PEI commits to loan guaranties and initial funding but the venture must finance projects from third-party lenders. Thus joint ventures are generally more highly leveraged than PEI's wholly owned properties. The format forces each project to stand the test of open-market economics and financing.

New apartments: PEI is also expanding apartment holdings with a 50% joint venture to build a potential 414 DU for \$8.5 mil.

at Fox Run near Newark, Del. Phase I is rented and Phase II units are renting as rapidly as completed. PEI also committed to a venture to build 262 luxury apartments in Eagles Trace area of Coral Springs, Fla., with construction starting this year.

EPS, Cash Flow and Dividends: Operating EPS and Net CFS should rise about 2%-3% for the Aug. 1989 fiscal year. Operating CFS rose 3.8% to \$0.81/sh. in the first half, with apartment rent rises offsetting losses from start-up shopping centers. Dividend was recently boosted to \$1.64 annual rate. With overall interest rates up, PEI gets some boost as it invests \$29.7 mil. still left from its 1985 convertible offer.

Assets: PEI's thrust continues in shopping centers and apartments, with PEI holding interests in 45 properties with gross cost of \$154.5 mil. divided 32% (\$49 mil.) in 14 wholly owned properties; and 68% (\$105.6 mil.) in 31 joint ventures (generally 50%). Property mix is 60% of cost in 23 operating shopping centers (95.5% occ.); and 26% in 10 apartments with 2,819 net DU (91.5% occ.). The trophy property is PEI's 50% interest in

424,000 SF Lehigh Valley Mall in Allentown, Pa.

Current Value: We see PEI's underlying net asset value in the area of \$26-\$27/sh., but the complexity and options built into its joint ventures make realization thru a liquidation unrealistic.

Advice: PEI's joint venture approach builds lots of hidden values in a quiet way. Longer term growth is steady. Buy/hold shares. (KDC)

3A4289#40 SANTA ANITA COMPANIES (SAR: NYSE) *Mike Dine*

SAR, concentrated in Southern CA, is actually a symbiotic relationship between two distinct Cos. that trade as paired shares of stock. Realty is the passive owner of properties and Operating Co. is the active manager of this real estate. In Mar. SAR raised \$58.5 mil. gross proceeds from a stock offer of 2 mil. shares.

Gut Issue: Will potential cash flow gains continue to boost stock that seems to be fully-valued at present? SAR's largest single asset is the Santa Anita racetrack, located to the east of Los Angeles, which produced about 51% of revenues in 1988. The live broadcasting of races (simulcasting) has become a major source of revenue growth for SAR. Remaining revenues come from assorted real estate, including 50% interest in a major regional mall on SAR land adjacent to the race track.

Current value: At \$31.13, SAR's shares appear fully-valued based on its recently published asset appraisal value of \$27.82 net of long-term debt. The shares have traded at premium probably reflect near-term cash flow boosts from rental upgrades and simulcasting, but keep in mind that SAR values only Realty's assets in its appraisal; when current value of Operating Co. are included total value may be closer to \$35-36/share.

Racing: Simulcasting has been the means of reinvigorating SAR's meal ticket. With on-track attendance running flat, significant growth can be achieved by delivering racing (wagering) to other locations. Legislation, approved by Calif. in 1987, now lets SAR telecast its meets to up to 13 country fairground off-site wagering locations (six are active now), as well as interstate locations in Las Vegas, Canada and Mexico. Total wagering rose in the first half, giving Realty a 31% boost in track-related rents.

Property: Of major appeal: SAR's 1.0 mil. (371,000 sq. ft. of mall shops) Santa Anita Fashion Park lease rollovers provide terrific leverage. One small lease recently jumped from \$6 to \$46/SF rent, but generally current market rates for space at the

mall range from \$20-40/sq. ft., depending on size and location. About 37% of leases are up for renewal in 1989 and 51% more in 1990-94. If all space up for 1989 renewal went up from the 1988 average rental of \$13.18/sq. ft. to bottom market range of \$20/sq. ft., SAR could get a cash flow boost of about \$0.02 to \$0.03/share but upgrades could bring in as much as \$0.25/share.

In 1987 SAR entered a regional mall project in Towson, Md. SAR has a 33% position in the 632,000 sq. ft. Towson Town Centre, a major shopping center under expansion to 1.2 mil. sq. ft., with Nordstroms coming in as anchor in late 1991. SAR's initial investment was \$1.5 mil. with \$6 mil. to be contributed at the malls opening. This looks like a winner for SAR.

SAR holds interests in other smaller properties: six community shopping centers with 302,750 net rentable sq. ft. (a seventh with 74,000 sq. ft. is under construction); four office buildings with 241,600 net sq. ft., including a 40% interest in a 120,000 SF office being built in downtown Pasadena, Cal.; an industrial park with net 311,000 SF; and a Calif. apartment with 406 units.

Advice: Hold/buy longer-term. SAR has great fundamental prospects for growth, however the market recognizes and has factored this in at current trading range. (MJH)
